Your Compass Card can be set up to automatically load new passes each month with a credit or debit card. It's the fastest, easiest way to make sure your card is ready to use when you need it. If it is a monthly pass, your card will reload five days prior to the end of the month and charge your credit card once the pass is loaded. Automatic reload will remain active until you request the service be discontinued.

Yes! Please have a Compass Card customer service center representative call to sign me up for automatic reload.
