

## Compass Card and Transit Pass Order Form

SANDAG is launching the new Compass Card – San Diego’s new smart card technology for transit. The Compass Card is now **REPLACING** all monthly paper passes. By fall 2009 all Metropolitan Transit System (MTS) and North County Transit District (NCTD) transit monthly paper passes will be available only on the Compass Card. As part of the Compass Card introduction, Compass Cards are free (a \$5 value) for a limited time.

You may order a Compass Card using the form on the reverse. The Compass Card offers new flexible pass choices. You may purchase a calendar monthly pass or a 30-Day pass. You may buy a 30-Day pass on any day of the month and receive 30 consecutive days of riding. **Calendar monthly passes are valid from the first to the last day of the month. If this is your first Compass Card, you will receive a calendar monthly pass for the upcoming month.**

If you would like to reload your Compass Card, please include the Compass Card ID number that you will find in the lower right corner on the back of the card. If you wish to reload with a 30-Day pass, the pass will be effective the day after your current pass expires. Then, you will receive 30 consecutive days of riding. No need to send in your card — we will process your request and reload the pass automatically on your card.

### How do I use the Compass Card?

On all MTS and NCTD buses, just tap your card on the validator located on or near the fare boxes. On MTS Trolley or NCTD COASTER and SPRINTER, look for the validators on the station platforms. Be sure to tap before boarding rail vehicles to validate each trip. Fare inspectors will be able to check your Compass Card with hand-held devices.

You also may reload your Compass Card at Ticket Vending Machines at any rail station, at the MTS Transit Store or NCTD Customer Service Centers, online at [www.511sd.com](http://www.511sd.com), or on the phone — call 511 and say “Compass.”
